Romulus Breaks Ground For Project in UR Area

Sheriff Motorcycle Patrol Inaugurated This Summer

BY BEVERLY MCANALLY

ROMULUS—Two new pieces of traffic control equipment have been inaugurated this summer by the Traffic Division of the Wayne County Sheriff's Department, Roman S. Gribbs, Sheriff, has announced.

Two Harley Davidson motorcycles have been put on the road and the job they do, according to Command Officer, John C. Devoss, is one that can't be done as well by conventional police vehicles.

Five patrolmen have undergone three months training by the Dearborn Police Department. The officers have been issued

special uniforms and the cycles have two-way radio equipment.

BECAUSE THE area they serve is so vast; 250 square miles of unincorporated western Wayne County, they do most of their work in parks and school areas.

Inspector Devoss, reports that their special value is their mobility as they are not confined to a road or highway. "They can go where a car can't," he said, "and the results have been very worthwhile."

During their four months of operation they have issued 1,000 violations and even more warnings, he said.

Motorcycle patrolman, Robert McGraw, was

enthusiastic about the new patrol. "We get around and we act as a deterrent," he explained that a motorcycle can, for example, operate around a school where a molester may have been reported, not only can the officer maneuver about the building easily, he can give chase in areas impassable for a car. They also assist in traffic accidents but are not used on expressways, except as an escort.

The vehicles cost \$2,300 each.

The five trained operators are: Patrolmen Larry Patterson, Billy Hunter, Louis Bryant, Robert McGraw and Arthur Laatz.

ISSUES APPEAL

Romulus Democrats Elect Alfred Perry

ROMULUS—The election to the presidency of the Romulus Democratic Club of Alfred J. Perry, current Romulus Township Clerk and former Justice of the Peace, has been announced.

Perry was elected by acclamation at the club's recent meeting. Twenty seven members attended out of 150 paid up membership.

Mrs. Mickey Lapota was elected secretary and Gordon Zavitz, treasurer. Other officers are to be elected at the October meeting, Perry announced.

The new president issued an urgent appeal to Romulus Democrats to re-vitalize the club which has been at a low ebb in activity in recent months. The club at one time has a membership of 650 members.

He reminded the membership that another political organization is forming in the Township (GOP) and ask Democrats to join the club and help it to

expand and take an active role in community affairs and leadership.

Some veteran Democrats laid the lack of interest in club affairs and programs to internal friction.

Perry said that he wants to eliminate this if it does exist.

He added that he was glad that another organization is forming as it will now create greater interest in government programs and leadership on the part of both clubs.

Helping Hand Thrift Shop Airs Programs and Needs

ROMULUS—Today is the last day of "Helping Hand Thrift Shop Week."

Romulus Township Supervisor Roderick E. Smith and the mayors of Wayne, Westland and Garden City have issued official proclamations last week honoring the volunteer workers of the Helping Hand Thrift Shop and are urging area residents to assist in its operations.

The shop, under the direction of Mrs. Florence Klein, a volunteer, is located in the Special Services Building of the Old Cory School, 7335 Washington, Romulus.

IT SUPPLIES clothing for needy families in the above areas upon receipt of a referral slip from authorized personnel.

Sewing projects now underway and others planned for the assistance of the needy depends largely on response of residents not only during the special week but afterwards.

All donations are appreciated and most needed are new items, particularly shoes, socks, underclothing, boys clothing in all sizes and baby clothes.

Due to the expansion of the Thrift Shop projects and to enable volunteers to assist

families who will not accept charity, volunteers have started to hold rummage sales.

They are open every Wednesday and Thursday morning from 9 to 12 noon selling clothing to the public at a nominal fee.

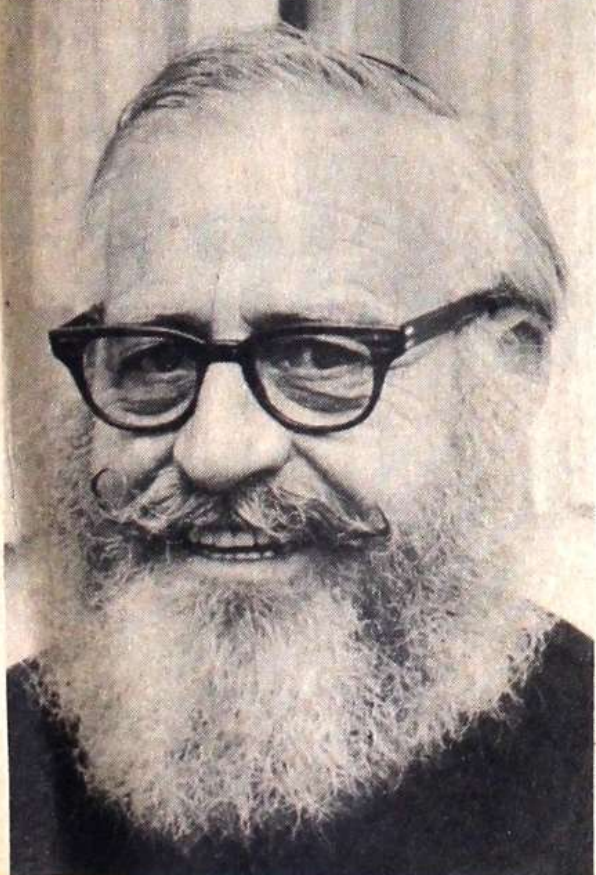

Social workers have reported that the shop could be aiding more people this way, Mrs. Klein said.

SEWING PROJECTS to teach people to utilize new and used materials are in the process of being organized.

Newspapers Help People Prosper

This is National Newspaper Week (Oct. 5-11) and we feel proud to take our bows along with the rest of the Nation's newspapers.

The function of a newspaper is informing and entertaining people is well known. But not many think of newspapers as a business, a manufacturing business that is one of the finest examples of free enterprise at work.

A paper must make a profit to survive. It depends upon advertisers who use newspapers in order that their own businesses can make a profit. It depends upon newspaperboys who often are entering upon their first business venture and who are most assuredly interested in making a profit for themselves.

The entire newspaper industry is based on the enterprise system and the American public has benefited tremendously. Thousands of newspapers exist in the United States and their independence almost guarantees freedom of the press.

We're small, but we have a large pride in being a part of the newspaper business.

In addition, Garlick announced that he personally will match the 10 percent sales total. The farm sells poultry products. Hours

Frank Mills, 16, of 278 Second Street, had one of his legs amputated following an accident while working on a farm last summer to further his education.

His classmates at Belleville High School, the class of '71 initiated the benefit fund drive with a car wash and dance.

The Public Letter Box

TO THE EDITOR:

Your coverage of the "new auditorium" story for Romulus High School (Romulus Roman, Issue of Sept. 24, 1969) is the LAST STRAW. On page one you say that the auditorium may be ready for use by Easter and also, in the page one story of Wayne Road traffic problems, you refer to Mr. Gerald Nault as assistant principal. He has been principal more than a year.

On page three you quote school officials as saying that the auditorium is tentatively scheduled for completion "late this year." Do they mean late this school year or late 1969? It is your job to make this clear and to investigate any discrepancy or conflict in different reports. Also, in the story on page 3, you state that Charles E. Cresswell is principal at Romulus High. This is not correct. He was not even here during the last school year.

Mr. Gerald Nault is principal and has earned the respect of our community. He deserves credit in your article.

I have been concerned for many months over the poor coverage and especially the inaccuracies in your Romulus stories. We in Romulus know the facts in these stories. When we read the errors you allow to be printed, we have no confidence in any other story in the paper. Can you blame us?

We had high hopes for better coverage when you began the special Romulus edition; but those hopes have been dashed to the ground. Only page one and page three

differ from the Belleville edition. And even the lead story on page three of the Sept. 24 edition concerns Ypsilanti.

This kind of "un-service" is disgusting and ridiculous.

FLOCKS OF BLACKBIRDS

A flock of blackbirds lights among the trees,
Arousing me from my memories,
And from the sky, a thousand blackbirds more
Are circling round in raucous glee.

Fall—As if returning from the southland,
They're headed toward the frozen North,
A flying arrow straight toward their goal,
By hidden impulse driven forth.

And still they hurry on until a storm
Perchance makes changes in direction,
Now flying south again instead of north,
Bemused by this deflection.

Perhaps the birds know not where they are going—
Of our way are we always sure?

Just be glad God cares for birds and man?
With Him beside us we're secure.

FLAG POLE DRIVE ON

Huron High Graduates Get 'Help Wanted' Call

NEW BOSTON—A Help Wanted call was issued this week to ALL Huron High School graduates, (all graduates since the first class of '53 through the present).

The call was issued by Vernon Moore, chairman of the Flag Pole committee for the high school's athletic building program.

"With the completion of the athletic facilities at the high school we find our self in need of a flag pole, one befitting the magnificent facilities. It has been

estimated that it will cost each class at least \$75.00 to cover the projects total cost," Moore said.

The class of '55' has issued a challenge to be first in and with the most. This challenge was picked up by a member of the class of '54', Moore disclosed.

"We would like to have the flag pole up and ready for the dedication ceremony to be held Oct. 17, at which time the field will be formally named 'Maveal Athletic Field' and also the homecoming

game and activities," Moore added. The athletic field is to be named in honor of a man who dedicated his every effort to the Huron School System and it's improvement, Ervin Maveal.

Time is short graduates so let's get going is the cry at Huron High.

Call Vernon Moore at 753-9388 for complete details.

"Please don't depend on someone else calling. I'm sure every class wants to help, and we want to hear from you," Moore said.

Oops; We Goofed Sorry

ROMULUS—In last week's issue, Gerald A. Nault, principal of Romulus High School was listed as assistant principal of the high school in a story reporting the progress of the new Auditorium being built at the high school. We regret this error.

Principal Nault has served the Romulus Community School System for 21 years and is credited by many as being responsible for the many improvements in the school operations.

The new 800-seat Auditorium being financed with funds from a \$3,400,000 bond issue approved by the school district's voters last November is expected to open late in the school year.

Nault succeeded Charles E. Cresswell, who resigned to accept a position elsewhere.

Again, we here at the Romulus Roman, sincerely regret this wrong title identification.

2 Townships to Form Commissions

ROMULUS—The Romulus and Sumpter Township Boards of Trustees unanimously adopted resolutions to form Commissions on Aging in the two communities.

The local Senior Citizens proposed the resolutions which were supported by the Wayne County Office of Economic Opportunity.

Both Townships strongly recognized the need to support and assist Senior Citizens' commissions in helping to develop long-range programs that would include facilities for various workshops, recreation, social and health services, resource information, handicraft and job placement service.

SENIOR CITIZENS' organizations in Sumpter and Romulus have been seeking local governmental support to aid and develop their organizations to the point of actually obtaining many needed services for the aged.

The groups have been functioning with limited activity with no outside financial help.

The request for official township support was presented at board meetings by James Boyd, project writer for the Wayne County Office of Economic Opportunity, who also is developing programs to meet the needs of the elderly in four other target areas -- River Rouge, Ecorse, Hamtramck, and Highland Park.

NEW FACILITY PROPOSED

PCHA Board Approves New Hospital Projects

WAYNE—Untouched by human hands. Not the patients in a PCHA hospital, of course, but their laundry.

In terms described as "exciting," "astounding," "international," and "pioneering," the Board of Directors of the Peoples Community Hospital Authority (PCHA) considered purchasing a \$263,900 German-made laundry processing machine.

In operation in approximately 140 European hospitals, the equipment to date is to be found in only two American hospitals.

A third hospital, the University of Michigan Hospital, is currently installing the apparatus.

PCHA DIRECTORS last Thursday, Sept. 25 voted unanimously to purchase the equipment, called "Poensgen Flowline," after months of study, recommendations by laundry specialists, and first-hand examination of it in Germany by Karl S. Klicka, M.D., PCHA Executive Director.

"I can only tell you," said Dr. Klicka, "that this apparatus is considered a

major break-through in the field of materials handling in hospitals by all who have either installed or examined it."

In effect hospital laundry personnel merely feed the apparatus with soiled laundry once, and it then flows through each stage of washing, rinsing and drying without again requiring human handling.

PURCHASE OF the equipment by PCHA is expected to save well in excess of \$150,000 in the construction of its new central laundry facility, since it eliminates a second floor in the building.

The PCHA directors made another major leap forward last night by approving purchase of a \$70,000 Technicon Autoanalyzer System. When installed in a PCHA hospital laboratory this device will automatically perform twelve separate diagnostic tests on a single sample blood.

The autoanalyzer, now in use in major blood laboratories and medical centers, will be installed at Outer Drive Hospital and will

service all PCHA unit hospitals.

In an action-packed session the PCHA directors also approved other major projects for PCHA hospitals, such as roof repairing at Annapolis and Outer Drive; electrical system modifications to accommodate the installation of individual air conditioning units at the same two hospitals; and an air balancing project at Seaway Hospital for its central air conditioning system.

IT WAS also reported that Seaway had successfully been surveyed by the Joint Commission on Accreditation of Hospitals, receiving as did Annapolis and Outer Drive recently, a three-year accreditation.

Of particular interest to the directors was a report on a co-operative training program for students at Inkster High School. Six students are involved in a hospital vocational training

program, using Annapolis for field work.

Finally, it was reported to PCHA directors that members of central staff along with representatives of the Authority's Long Range Planning Committee last week made formal presentation to the Greater Detroit Area Hospital Council of PCHA's new \$12 million medical care facility in Taylor.

The Council is the official areawide planning agency for member hospitals in the Detroit metropolitan and surrounding area.

The PCHA is a quasi-public body operating four hospitals in Ypsilanti and Western Wayne County. Tax assessment from its 22-Member Communities and in PCHA's support.

Bond Tax Exemption Scare Must End

The United States Congress is currently considering a proposal to eliminate the tax exemption on money earned from interest paid on municipal and governmental bonds.

Quite likely, the Congress will never approve the elimination of this tax exemption. More likely, the presence of this proposed change in tax laws before the Congress is simply aimed at scaring off investment in such bonds in order to cut the spiral of inflation in the economy.

In other words, the whole thing is a scare tactic, with a purpose behind it.

So far, the tactic has been working. Investors in municipal and governmental bonds are practically non-existent. The State of Michigan cannot sell the bonds approved by the voters last November to be used for recreation and anti-pollution measures throughout the state.

The County of Wayne cannot sell the bonds it needs to raise money for

improvements on such routes as Warren Road, badly needed by Westland and Garden City.

The City of Westland cannot sell bonds for its paving program for the same reason. Bond issues passed by other communities and local school districts are meeting with the same fate. There are no buyers, and thus, there is no money for needed improvements.

However you view the inflation problem in the nation, there has to be some basic agreement on the fact that local communities like those in Western Wayne are going to be in deep trouble if they can't begin to make the improvements they need to serve their people. The same goes everywhere, but in Western Wayne, the needs are more critical and immediate than in many other areas.

We urge local citizens to bring pressure to bear on federal legislators to put an end to the speculation over the elimination of the tax exemption on governmental bond earnings.

This serious roadblock must be removed if Western Wayne communities are going to progress in the near future.

Beebe, Won't You Please Stay Home!

Nearly every week there is a new development in State Sen. N. Lorraine Beebe's crusade against secondary boycotts of agricultural products—or more specifically her campaign against the boycott of California table grapes.

Whatever the merits of her crusade, we think the 12th District Republican should be spending more time doing something about the problems in her own district and less time traipsing around the country on a matter that is only of marginal interest to her constituents.

Mrs. Beebe has already made two trips to California in connection with the boycott. She is chairman, we are told, of a 25,000-member group called the Consumers' Rights Committee, based in Washington, D.C.

There is nothing wrong with a state official getting involved in a national issue. In fact, it's laudable. But we all know what we think of the busy clubwoman who ignores her children in order to take care of her club duties. We think Sen. Beebe is similarly ignoring her own constituents and their problems in favor of a less-important involvement.

If Mrs. Beebe wants a crusade, here's one for her. The children of the Westwood Community Schools, in her district, need help immediately. These children are on half-day sessions.

Why doesn't Mrs. Beebe devote her energy to educational fiscal reform? Why doesn't she lead her constituents in a march on Lansing to wake up her fellow-legislators to the problems of children who live in tax-poor school districts? Why doesn't she wake up to this problem herself?

Here, indeed, is a noble cause for a senator who represents parts of Inkster, Dearborn Heights, Dearborn and Redford Township and not Delano, Calif.

Reflections

Only the Girls Promote Romance

By Joyce Hagelthorn

Articles are forever appearing in magazines and newspapers on how to keep your husband romantically interested, and I'm here to tell you that whoever writes those articles are either wishful-thinking men, or women who have never been married, because no one, absolutely no one can keep a fellow romantically interested...if he isn't listening.

And men close up their ears about the time the little bride discovers that romance is purely a feminine preoccupation.

Now don't misunderstand me. I'm not saying marriage isn't good...I'm just saying romance, it ain't!

However, I must admit that every once in awhile I think maybe I should stir the ashes, just to see if there might not be a spark left over somewhere. So I take the curlers out of my hair, lay in a fresh supply of Right Guard, and just before HE is due home, dab a bit of perfume behind my ears.

And what happens? Well, let me tell you how it was the other evening.

There, I was all perfumed up, with dinner burning away on the stove, waiting for my love.

When I heard his step in the hall, the kids were shoved out of sight, some under the sink, some under the table, and the one with the bubble gum in her hair was shoved behind the door.

HE came in...and I met him halfway. Up went my loving arms, and out went my puckered lips. I leaned against him enticingly, and closing my eyes...I sighed.

And he said, "Who broke the window?"

Or let me tell you about the evening we were invited to a formal dinner dance.

I had been longing for a very expensive perfume. Every Christmas I would say,

"Please get me Passion-Flower perfume." But no one ever did. Every birthday I would hint... "Don't get me anything but Passion-Flower perfume." But no one ever did.

One day my roommate left his billfold on his dresser. Feeling rather sneaky, but not really, I swiped a few dollars, and bought myself the perfume.

The evening of the dinner-dance I dressed carefully and lovingly. I caressed my arms, and my throat with my elegant new perfume, and then I floated out to the honking car.

Cuddling down into the seat, right next to my love...with only the console dividing us, I smiled up at him.

And he hurriedly lowered a window and said,

"My God! What stinks!"

'If It Fitz...'

Keeping Limber-Fingered

By Jim Fitzgerald

On one TV weekend I listened to Arnold Palmer announce golf, Mickey Mantle announce baseball, and some ex-fullback announce football.

That's a good deal. When a guy gets so old and battered he can't do his thing anymore, he watches some other guys do it and describes them on TV and radio. He is an automatic expert and automatically draws the wages of a top announcer. It doesn't matter if he can't talk. The important thing isn't if he slurs or stutters, but did he play the game?

Newspaper men should have it so good.

My typing fingers are getting stiff and I can no longer touch-type numbers without peeking at the keys. My left little finger was the first to go. More and more I aim it for the z key only to stub off the a key, thus producing only half a z. I could probably go on a few more years, but it is tough on a man's pride to produce half z's when, all his career, he was noted for typing clean copy, never leaving a tail off a g or the top off an i.

I'd like to quit while I'm on top, while the readers are still reading. I hate to fade slowly. It would be humiliating to have my family hear the readers grumble such things as "old

Fitz can't reach his p's and q's anymore." But if I step down now, before I have 2 bad years back to back, it would be worse than humiliating for the kids—it would be undernourishing.

A splendid solution would be a well-paid TV job announcing weekly newspaper editing. It might be called Wide Wide World of Weeping Weekly, sponsored by an involved industry, such as Royal Typewriter or Seagram's Distillery. The camera and I would follow the editor-of-the-week as he performs his daily tasks. My play-by-play description would go something like this:

"Good afternoon, ladies and gentlemen, welcome to the Wide Wide World of Weeping Weekly, brought to you today from the office of Sam Inkstain, editor of the Lum Bugle. I must whisper like this because I'm only a few feet from Sam and I don't want to wake him up.

"Oh-oh, here comes a customer through the door. As you can see, she is a rather big woman. She is putting several sheets of paper on Editor Sam's desk. From here, it looks like a wedding story. Yes, it is. I don't know if you

could hear that or not, but the woman told Sam to publish the entire story, and not to change a word.

"Now the woman has left and Sam has begun to edit. Notice the firm, slashing stroke of his black pencil as he knocks out whole paragraphs at once. There goes the description of the bride's gown. Out goes the name of the organist. Will you look at that, folks? Without a second's hesitation, he has crossed out what the bride's mother wore to the reception. And-omigosh-there goes the name of the aunt who baked the wedding cake.

"Folks, as you know, I was in the editing business for years so I can appreciate the bravery of what Sam has just done. He has not played it safe. He has gone all out to make room for the important news in this week's paper. He doesn't care if that big woman is married to one of his biggest advertisers. Sam appears to be going for the Pulitzer today and he just might make it, barring injuries."

That's just a small sample, but you can see what a thrilling program it would be. Just thinking about it makes my little finger ache—probably as bad as Arnold Palmer's hip.

We Take Gallons Of Glop

By Richard McKnight

The American public has to be incredibly gullible to swallow the sort of hoax that is routinely foisted upon it.

Most recent hoodwinker is Mary Barelli Gallagher—the woman who is currently revealing all about her former boss—Jackie Kennedy Onassis.

The American public swallowed gallons of glop about Jackie Kennedy long before Mrs. Gallagher appeared on the scene, but incredibly, appears to be ready to swallow more.

Mrs. Gallagher continues to try to hide the fact that she is making a pile by exposing Mrs. Onassis's holey underwear to the waiting world. It's something like saying, "Mrs. Kennedy was just wonderful to me—why she is the nicest pig I've ever known."

Ugh! Why do we stand for it.

Then there was the recent spectacle of Tiny Tim betrothing himself publicly to a 17-year old school girl from New Jersey.

Tiny, it seems, has promised to be wed on the Johnny Carson Show on Christmas Day, inviting the entire nation to tune in for the nuptials. This could be the chance Joey Bishop has been waiting for.

Another one to watch is Senator Robert P. Griffin's public agonizing over the nomination of Clement Haynsworth to the Supreme Court by President Richard M. Nixon.

Griffin, who is well known for his determined assault on Abe Fortas, is now in the position of having to remain consistent, by taking the same pains to minutely examine the past record of the nominee of his own party leader.

The result has been that Griffin alternately backs and has reservations about Haynsworth as the facts become known. Currently, Griffin has reservations, although a week ago he was sure he would back Haynsworth. At the same time, Griffin has not, apparently, seen fit to examine the results of Haynsworth's past decisions, as he did when he showed "blue" movies to fellow Senators in order to discredit Fortas by identification with obscenity decisions.

An intelligent public should be flooding Griffin with please for consistency, just as it ought to inundate NBC for the Tiny Tim affair, and boycott the further dissection of Mrs. Onassis.

Unfortunately, the public is likely to continue to get exactly what it wants. Somewhere along the line, the public will have to begin demanding more in order to change the prevailing levels of good taste.

Where crusaders for public decency and "old-fashioned" morality often fail is in their attempts to cut off the supply rather than attempting to eliminate the demand for public exhibitions of poor taste.

Such things as these hoaxes on the public die when the public no longer wants them. It's up to all of us.

Lift Up Your Head

Pooch Problem No Joke

By Rosemary Kozielski

Before everyone starts howling, let's get one thing straight. I like dogs. Honest. Mostly I like medium-sized dogs, because they don't yip and squeak like little dogs and they don't knock you over like big dogs. But I do get along with most dogs.

The problem is that my neighborhood—and yours, too, undoubtedly—are becoming kennels. Have you noticed the increase in the dog population lately? This does not mean that our pets are busy reproducing. The new dogs are not the offspring of the neighborhood mutts.

They are big dogs. Too big for a suburban back yard or a basement. They are German shepherds, collies, Doberman pinschers. It is readily apparent that these dogs are not meant to be pets; they're meant to be watchdogs who will, their owners hope, deal viciously with any intruders.

But there's a fly in the ointment—or should we say flea? Many of the people who keep these animals have children. Or, if they do not, their neighbors do. It's like keeping a loaded gun under your pillow; you're more likely to shoot your own head off than to be killed by an intruder. In the same way, the owner's children and neighborhood kids are more likely to get bitten by the dog than kidnapped or molested.

The one thing that really worries me is that some people don't take care of their dogs. They let them out in the morning to run loose, alone or in packs with other dogs. I just hope the owners of these watchdog-bred canines will be more careful.

Each morning I shudder when our local German shepherd takes his master for a walk. I often wonder what will happen if the little, old man loses his grip on the leash. The German shepherd loves to leap at passing bicycles with little girls on them and at other pedestrians.

Here's hoping that families will use a little discretion when purchasing a pooch. At the rate things are going, I'm afraid it's going to be a dog's world.

Hritz-Hanson Wed In Ecumenical Nuptial Ceremony

In an ecumenical ceremony at the Faith United Methodist Church, in Denton, Marthajane Hanson and Jeffrey Hritz exchanged nuptial vows and wedding bands. The Rev. Clive H. Dickens, church pastor, and the Rev. John B. Rose, of St. Anthony's Church, officiated at the six o'clock rite before some 200 assembled guests.

Arrangements of white gladioli, giant daisies, and sprays of baby's breath graced the altar as the bride approached on the arm of her father.

The daughter of Mr. and Mrs. Osborn Hanson, of 600 Sumpter road, Belleville, Marthajane selected a floor-length gown of dotted Swiss fashioned with a scoop neckline and elbow-length bell sleeves for her wedding day. Her own creation, the dress was accented with dotted Swiss ruffles at the neck, sleeves, and hemline and again on the train which extended to chapel length as she walked.

A petaled headpiece of crystals and pearls clasped her elbow-length silk illusion veil and she carried a colonial bouquet of white daisies and baby's breath trimmed with white lace ribbons.

A CLOSE FRIEND of the bride, Patricia Budd, wore pale green dotted Swiss for her role as maid of honor. The toe-touching frock was distinguished by moss green trim. She wore a double bow headdress in matching fabric and carried a bouquet of yellow and white daisies with moss green streamers cascading floorward.

Identically gowned were two of the bridegroom's cousins, Sue Spillane, of Flint, and Donna Biniek, of Inkster.

Junior attendants at the ceremony were Paul and Audrey Hanson, nephew and niece of the bride and the children of Mr. and Mrs. Donovan Hanson, of Belleville. Audrey donned a dotted Swiss fashion styled with a green bodice and white, floor-length skirt. She, too, held a bouquet of yellow and white daisies.

Thomas Budd was asked to be best man. Ushers were Dennis McClure, of Tecumseh, and Les Epstein, of Birmingham, both college roommates of the bridegroom.

AT THE RECEPTION, which followed in the Romulus Progressive Club, Mrs. Hanson greeted guests in a pink lace dress to which she added a white orchid corsage and white accessories. For her son's wedding, Mrs. Hritz chose a turquoise lace ensemble with bone accessories. Her corsage was also a white orchid.

Following their week-long honeymoon at Niagara Falls and Toronto, the newlyweds made their home at 200 Kathy Circle, Jackson.

A graduate of Belleville High School, the new Mrs. Hritz was employed at the Ypsilanti Savings Bank prior to her marriage. Her husband is a graduate of St. Agnes High School, in Flint, and Eastern Michigan University. He is currently on the teaching staff of Grass Lake Community Schools.

SHE'S A WINNER Mrs. Floyd Griffith (Sally) took home a lovely 14-ounce strip sirloin from the joint Kiwanis-Rotary Ladies Nite last Tuesday at the First United Methodist Church of Belleville. She was among the lucky ladies to be awarded prizes from Edward F. Meyer and John Lambert, manager and assistant manager of Win Schuler's in Jackson, who were guest speakers for the evening. Mrs. Orlo Roberts is in the background.

FOR EXCELLENT SERVICE Mrs. Rhonda Jones was the surprised recipient of a crock of Schuler's bar cheese at last Tuesday evening's joint Kiwanis-Rotary Ladies Nite. Among those waiting on tables, Rhonda was singled out by the manager of Win Schuler's in Jackson, Edward F. Meyer, for her excellent, outstanding, and friendly service. Rotary secretary, Art Harvey, and Kiwanis vice-president, Bert Smith, are in foreground.

B.P.W. Is Co-Host At District 15 Meeting And Luau

Twelve members of the Belleville Business and Professional Women's Club were in Southgate Sunday, September 21, to take part in the Fall Meeting of District No. 15. Held at the Presidential Inn, it was the first session for the newly-formed district.

Belleville represented by president Helen White and Taylor, by president Doris Baskevics, were hostess clubs for the day.

The agenda included a coffee hour at 1 P.M.; a business meeting at 2 P.M.; and a Hawaiian Luau at 3:30. Mrs. White was toastmistress and also introduced the guest speaker, William B. Shaffer, Southgate Chief of Police,

who spoke on "No Time for Crime".

Attending from here were Beth Scola who, with Mary Cole of Taylor, was co-chairman of the event; Esther Smith, Ruth Lindsay, Ruth Davis, Marcella Dunton, Olive Domen, Mildred Arley, Margaret Saunders, Beatrice Boldt, Marie Clayton, Helen White, and Cora Horton.

Cory's PTA Meeting A Success

ROMULUS—Coffee and Donuts were served to those who attended Cory PTA's "New Mother's Coffee Hour" on Monday Sept. 29, between 9 and 11.

The purpose of the gathering was to acquaint the mothers with the school and the PTA, according to Mrs. Fran Petre, president. "We told them what our PTA does and we invited them to be a part of the group," she said. "We were pleased to meet the mothers who are new to our district as well as those who have children in Cory School for the first time."

Hostess were Mrs. Shirley Linderman and Mrs. Ella Moore.

BELLEVILLE METHODIST CHURCH

All Around The Town...

... with Lee Smith
Women's Editor

Kiwanis-Rotary Ladies Night

MARKING A 'first' for local service clubs, the Belleville Kiwanis and Rotary organizations met last Tuesday for a joint 'Ladies Nite' dinner. Held at the United Methodist Church, the evening included close to 100 persons who dined on roast beef and the trimmings prepared by the ladies of the church.

Darryl Raymond, Jr., vice-president of Rotary, and Bert Smith, second vice-president of Kiwanis, planned the program which featured two speakers from Win Schuler's Restaurant, in Jackson. Ed Meyer, manager, and John Lambert, his assistant, provided a most entertaining evening by explaining many of Schuler's cooking methods to the group; how meats such as roast duckling are prepared in advance, and the coming prospects for synthetic foods.

The program was kept lively with the presentation of gifts to those in the audience. Jim Fitch, secretary of Kiwanis, was singled out to receive a chef's apron proclaiming "I Cook for Win Schuler's" because the two speakers had noted his prowess during dessert.

Rhonda Jones, one of the gals waiting on tables, received a crock of Schuler's bar cheese for being a most congenial waitress. Others taking home jugs of the same cheese were Marian Batzer, Frances Stapleton, Carol Lo Presto, Joy Hill, Nora Bird, Dortha Simmons, Carol Fitch, and Mary Anne Hudge.

Sally Griffith and her hubby, Floyd, will be eating a beautiful strip sirloin which the Schuler duo awarded and Helen and Gerry Miller have a rack of lamb in their freezer for some future date.

Rick Muschel, Belleville High senior who was 'Boy of the Month' for Rotary, garnered a huge box of frozen shrimp; Audrey Stoelton and Wilma Tator were the winners of two wines - a matusse rose and a May variety, and Larry Pink went home with a package of roast duck.

Yours truly was picked (as a good sport) to demonstrate the yard of ale which came splashing down 'all over' (just as the speakers had intended). There's a trick to tipping the yard-high beaker so that nary a drop is spilled but, being my first attempt, I played right into their hands. But then, there's a nice jar of that cheese in my refrigerator as a consolation prize so 'twas well worth it. Besides, the bottle was filled with Pepsi, my favorite!

Floyd Griffith as emcee for the 'business' (monkey business) session after dinner informed the combined club members of their fines for the evening with Justy Emerson and Harry Hidenfelter acting as 'sheriffs' for the collection.

Justy was also given an accolade for his 35th anniversary with the Detroit Edison Company and Orlo Roberts was serenaded with 'Happy Birthday'.

Denise Turns 10

LAST FRIDAY was a big day out at the Ralph Patterson home on Savage road—their daughter, Denise's 10th birthday! And in honor of the occasion there were a dozen young ladies invited in for a pajama-birthday party.

Arriving at seven o'clock with their sleeping bags, pillows, and little overnight cases in tow were Denise's classmates from Haggerty School, Debbie Gibson, Jennie Hook, Sharon Previdge, Carol Smith, Jane Reinbackel, Connie Cook, Robin Wilson, Jennie Koss, Cindy Patton, and Kathy Patterson as well as good friends, Tammy Bolda, of New Boston, and Kim Alles, from Southgate.

Several games were on the agenda along with records and dancing followed by cake, ice cream, and pop served in a pink and blue setting.

And at bedding-down time there were all kinds of goodies to snack on—chips, peanuts, pretzels, and candy.

Before the girls left in the morning their hostess, Mrs. Patterson, dished out a yummy breakfast of French toast, orange juice, and lots of milk.

New Daughter Baptized

THAT BRAND new addition to the Otto Bitnar home out on Grove Road—Lisa Gail—was baptized Sunday afternoon at St. Ursula's Catholic Church with Father Mitchell Bednarski presiding. Godparents for the infant, who arrived August 25, were her uncle and aunt, Art and Joy Hill, of Belleville.

Following the ceremony, the Bitnars with daughters, Jill and Lisa, and the Hills with Greg, Diane, and Laurie, drove out to Saline for a celebration dinner at "Leutheuser's." After returning to the Bitnars they were joined for an evening lunch by the baby's maternal grandparents, Mr. and Mrs. William E. Hennells, of Harmony Lane.

Lisa, whose mother is the former Alice Hennells, weighed 7 lbs.-10 ozs. on her summer debut at Annapolis Hospital, in Wayne.

Ed Bizek to Address Merriman Residents

ROMULUS—The Merriman PTA, the newest unit in Romulus Township, will continue to pursue its goal of educating the parents of the Merriman School District.

Recognizing that most of the residents of the area to be served by the new Merriman Elementary School were new to the community, the group sponsored a candidates night prior to the last township election.

Their next meeting will be on Oct. 8, 7:30 p.m. in the Multi Purpose Room at Harrison School, 14701 Harrison rd.

He will present a slide show that will cover the entire range of public services provided by Wayne County.

A short business meeting will follow the showing. Refreshments will be served.

Most meats for roasting are placed on a rack in an open, shallow pan. The single exception may be a beef standing rib roast since the bones usually form a natural rack for this meat cut.

Since these roasts are becoming more compact, that is, shorter, they may roast more easily when supported on a rack.

In some ways, electric heat is better than warm summer sunshine. For one thing, it's even the year around. And it stays that way during weather changes. Also, with electric heat, drafts and cold floors become a thing of the past.

With flameless electric heat, you'll never wake up in the morning feeling dried out.

You even get an operating cost guarantee. In writing.

If you'd like a free estimate of installation and operating cost, we'll arrange for an Edison Approved Electric Heat Contractor to call on you. Naturally, there's no obligation.

Convert to electric heat. Winter will never be the same.

"Electric heat is like having warm summer sunshine inside your home," said Mrs. Noah Cochrum of Troy.

PTA Has

Good Start

ROMULUS—Harrison PTA has begun its year's work on a note of optimism, Bob Knight, president, has announced.

Teacher response to special letters of invitation from Knight and principal Robert Bable was very encouraging, he said.

Sixteen teachers and forty-five parents attended the first PTA meeting of the year. Membership is a proud 44.

"We're hoping for a better understanding between parent and teacher," he said, "a closer relationship so that we would all be working together for the kids."

THE REGULAR meeting night was changed from Monday to the third Wednesday of each month. The next meeting will be Oct. 15.

The PTA presented each teacher with \$15 to be used for Rainy Day Games. Plans are underway for a Kindergarten Halloween party and the Christmas Program is already being discussed. According to Knight, a Spring Fair will be held. The Hot Lunch program will be continued, he said.

Mrs. Linda Larkin was elected treasurer, she replaced Mrs. Claudette Ozment, who resigned.

Specialist to Consult With VB Title 1 Staff

DR. BRAKE and her associates have just completed a year long study to define the essential reading readiness skills which are prerequisites to formal reading. She has compiled numerous methods, materials and ideas to reinforce and strengthen these readiness areas.

During 1969-1970, many of the Van Buren kindergarten and first grade teachers will utilize Dr. Brake's program.

The Van Buren teachers will also devise activities and ideas which meet the specific needs of the Van Buren kindergarten and first grade children.

IN ADDITION to the utilization of Dr. Brake's program, the Title I staff, with the help of teachers, will begin the writing of a series of formal reading prescriptions based on the developmental process of reading readiness skills. These formal reading prescriptions will be available for both school and home use. They will be applicable to first graders.

Dr. Brake's program offers an extension to the services already available under Title I:

- * Reading Consultation Services
- * Reading Prescriptions (available at the present time)

for second grade through sixth grade.)

* Development of Student Self-Responsibility.

* Development of Self-Responsibility is in part contingent upon successful school experience both academic and social. The Title I Center, Title I teachers and Dr. Brake will start now to plan and carry out a program that offers ultimate successful reading experiences for all the Van Buren students, Mrs. Woolery reported.

1968 - 1969 Romulus Community School District Audit Romulus, Michigan

Board of Education
Romulus Community Schools
Romulus, Michigan

To the Board of Education:

We have examined the balance sheets and related statements of revenue and expenditures of the Romulus Community Schools for the fiscal year ended June 30, 1969. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying financial statements of the various funds present fairly the financial position of the Romulus Community Schools at June 30, 1969, and the results of its operations for the year then ended, in conformity with generally accepted school accounting principles applied on a consistent basis.

Respectfully submitted,

Post, Smythe, Lutz and Ziel

The above report does not show the balance due on school bus loans totaling \$131,150.71. It does show that the district operated within the revenues available during the 1968-69 fiscal. The 1969-70 school year will see the operation of several new classrooms and the return of programs dropped from the 1968-69 budget due to lack of revenue. The district will be faced with increasing enrollment, necessitating a bond and operating millage election during the coming year. The school year will also see the completion of several building projects started during the past fiscal.

What Is Urban Renewal?

(Editor's Note: The first of two articles on Urban Renewal Programs submitted by George Wilhelm, Urban Renewal director for Romulus Township follows.)

BY GEORGE WILHELM

First let us discuss what Urban Renewal is not. Urban Renewal is not the answer to solving all a community's problems. It is not the Federal Government bulldozing its way rough shod over the people of a community against their will. It is not something which can exist within a community by itself divorced from all other community activities and programs.

It is basically nothing more or nothing less than a "tool". It is one of the many tools a community can use, if it so desires, to achieve its goals. It is one of the many tools by which a community can provide money to do a particular job.

A community finances its programs in many ways; through direct taxation, the selling of municipal bonds, special assessments, rebate from the State for maintenance of streets and highways, special projects by service clubs.

IF A community has a job which must be done and it does not have the financial resources it can apply to the Federal Government for one of the many Grant In-Aid Programs, one of these being Urban Renewal.

As with any tool the success depends upon how the workman uses the tool. It is unfortunate but true that people have a tendency, when a job is botched up, to blame the material, the tool, their mother-in-law, their family, the dog, but never themselves.

Then Urban Renewal is a tool and, although a tool can be improved, the primary success or failure of any Urban Renewal Program is dependent upon how it is used by a community.

BUT WHY Urban Renewal?

First of all let us realize no community stands still. All life is in a process of change. Part of that change is the realization that as a community grows, the needs of that community change. What was good and acceptable yesterday, is out of date and unacceptable today; what was adequate for existence yesterday, is inadequate and many times dangerous today.

Romulus today is experiencing an accelerated rate of change not experienced by any of its surrounding communities. We see this change taking place in our accelerated industrial expansion and the rapidly increasing population: This calls for more schools, more sewer and water, better roads; which in turn calls for more and more money and creating a greater burden on the taxpayers.

It therefore becomes imperative, for any progressive thinking community, to utilize all available resources, whether local, state or federal, in planning for the development or redevelopment of its community.

Urban Renewal comes into the picture when a community wishes to attempt a program which is beyond its financial means, particularly if this program is within an area designated as a substandard and deteriorating area.

YOU WILL notice I said

deteriorating and not deteriorated. There are very few areas in Romulus Township which a person could call a slum, in the Detroit sense of the word, and substandard can mean a lack of streets, storm drainage, street lights, mixed use, lot sizes, as well.

Romulus Township chose the Wayne-Beverly Area as its first Urban Renewal Project not because of the minus factors but because of the

plus factors, which gave it better than a 75 percent chance of producing a successful program.

These plus factors included; an established able community of predominately homeowners; active community participation by its residents in all phases of Township activity and a location which placed it directly in the center of the future residential growth of Romulus.

THE GLASS TORINO—Sure to be a show stopper at auto shows and exhibits during the next year is Ford Division's unique glass Torino. Created to make car owners more aware of exactly what's under the hood, the car opens up thousands of mechanical parts that are hidden by sheet metal on normal production cars. The sculptured, fully operational Plexiglass car shows that the 1970 Torino is not only all-new on the outside, but on the inside as well. The new Flow-Thru ventilation system, for example, can be illustrated by piping smoke through it and watching its path of travel. The workings of the all-new-design 351 V-8 engine are emphasized by multi-colored components while suspension, under-chassis, brakes, brake linings and other components also are painted in bright fluorescent colors for easy identification.

'We're All We've Got'

"We're all we've got."

That's the 1969 Torch Drive theme. It will be seen and heard with increased frequency as the 21st annual United Foundation campaign gets underway Oct. 14. And very often it will be accompanied by the familiar UF slogan: "Everybody benefits; everybody gives."

There is reason for choosing both the theme and the slogan. For we residents of the Torch Drive area—Macomb, Oakland and Wayne Counties—need to be reminded of certain truths:

THE UF belongs to all of us. It serves everyone, not just the sick, the poor and the infirm. Because we share the benefits, we in the Metropolitan Detroit community traditionally share responsibility for supporting the Torch Drive and its nearly 200 health and community services.

The campaign theme sums up the very philosophy of united giving: "We can't pass the buck. Because we're all we've got, we need each other. We willingly help one another. And that adds up to just helping ourselves."

Between now and the Victory Dinner, scheduled to conclude the campaign on Nov. 6, let us make certain each of us gives generously and gives enough for all.

Belleville Kiwanis Lauded by Hospital

BELLEVILLE—The Belleville Kiwanis Club recently made a donation of a "page turning machine" for use of physically handicapped patients at the Wayne County General Hospital.

This week Edward C. Stoelton, president of Belleville Kiwanis Club, disclosed contents of a communication received from the hospital officials thanking and praising members of the club for their donation and interest in care and comfort of the physically handicapped.

The communication issued by Mary Landstrom, publicist, said in part:

"I would like to thank you and the members of your organization for the recent donation of the "page turning machine" to be used by our physically handicapped patients. For many of these individuals, this will provide them with the only opportunity for independent reading.

"It is through the kind concern of community groups such as yours that we are able to provide these unfortunate individuals with items to make their lives more pleasant and meaningful. The machine will be utilized by a variety of individuals and will serve as a reminder of your generosity."

Seat belts which are not used do not save lives, reminds Liberty Mutual Insurance Companies. To increase your chance of survival in case of an accident, buckle up for safety.

Starts Second Year

Air Force Academy Honors Cadet Ash

ROMULUS—Cadet George W. Ash, son of Mr. and Mrs. Charles R. Ash Jr., 27283 Sibley Road, is one of more than 960 cadets who have entered their sophomore year at the U.S. Air Force Academy.

During the past summer, Cadet Ash and other members of the class of '72 completed an intensive six-week training program at the Academy and armed forces installations across the country.

The cadets were trained in survival techniques and base defense tactics in the rugged Rampart Range area near the Academy. They also completed a combat course in infantry weapons at nearby Ft. Carson, Colo.

THE FINAL three weeks of training was conducted at several bases where the cadets got a first hand look at operational Air Force units and aircraft. This included an orientation flight in various types of aircraft.

Cadet Ash has been

selected as a flight guide with the rank of cadet staff sergeant. Chosen because of his demonstrated leadership ability, he will set the marching pace and direction for his 36-man flight.

Assembly Plant Tours Resumed

WILLOW RUN—Regularly scheduled plant tours at Chevrolet Motor Division's assembly plant here have resumed.

The guided tours are conducted Monday through Friday at 9:45 a.m. and 2 p.m. when the plant is in normal operation. Casual visitors do not need reservations, but advance arrangements are recommended for school and other groups.

Group tour arrangements can be made in advance by calling 482-9281, Extension 271.

PLANT TOUR visitors should report to the main entrance on Tyler Road.

During the 45-minute tour, visitors will see the 1970 Nova being assembled, including the dramatic body "drop" when the car body and chassis are mated. Bodies for the Nova are produced at the adjacent Fisher Body plant.

visitors will also see the numerous inspection and quality control operations involved in the final assembly process.

The plant has hosted more than 2,100 visitors this year. Tours were suspended in August for model changeover.

determine fully the effects of freeway lighting on traffic safety in urban areas.

State Highway Director Henrik E. Stafseth said bids will be taken next year to light nearly three miles of Interstate 94 northeast of Detroit, from 8 Mile Road north to the future interchange with Interstate 696 just south of 11 Mile Road.

Stafseth said the study will include a before-and-after comparison of nighttime accident rates on the three-mile section. This will serve as a guide to future lighting policy on urban freeways outside of Detroit.

"STUDIES TO DATE, in the Detroit area and nationally, show that unlighted urban freeways are generally as safe or safer than lighted sections," Stafseth said.

"From this we have determined that lighting of suburban freeways is not warranted from a safety standpoint, except possibly at some interchanges."

Stafseth said, however, that the Interstate 94 study will be the Department's first before-and-after study of the effects of lighting on traffic safety on the same stretch of urban freeway. Prior studies have been keyed to comparisons of accident rates on separate lighted and unlighted sections in urban areas.

Cost of the lighting has not been determined.

AIR TRAFFIC BACKUP AT METRO—The air traffic problems that have been plaguing the major airports in the nation is also evident here at nearby Metro Airport as the upper photo shows. Meanwhile at the control center many air traffic controllers are on constant duty to regulate aircraft landings and takeoffs. Lower left photos shows Air Traffic Specialist John Ogden of Plymouth at his station with a ASR-6 Rader unit for surveillance of approaching aircraft while in the visual tower Air Traffic Specialist Robert Konopka of Westland directs and controls local air traffic.

Air Traffic Direction Takes 'Cops' With Guts

THE CROWDED SKIES—Most of the nations press and radio have been trumpeting in recent months over air traffic delays and conditions at most major airports throughout the country.

This has been brought about by the unprecedented acceleration of success that has descended upon the aviation industry. Air traffic in the skies has reached a flow that was never even dreamed of a few years ago and as recent surveys and projections have computed, the hectic pace is barely the beginning.

All fields and categories in the flying world are feeling

the pinch of an acute shortage of qualified and trained personnel.

This shortage has been keenly felt by the main cog that is the basic hub of any aeronautical operation, the Federal Aviation Agency. The FAA has initiated a full-scale recruiting and training program throughout the United States.

FAA recently announced an urgent need for air traffic controllers and electronic technicians sorely needed in the operation of our national airspace system.

For many ex-servicemen, the FAA civil service

appointment could prove to be a life-time career, especially the many who have had experience in the Air Force or military branches as a pilot, air traffic controller, navigator, dispatcher, or radio communicator. High on the "need" list are men with experience as radar operators.

Applicants with prior experience along these lines could well pick up where they left off. Under civil service status, the monetary side would be well worth it. Starting salaries range from \$7,600 with possibilities of promotion to earnings as high as \$17,500.

While the preference is for men with experience, this is not mandatory. Acceptable is anyone with a college education of three years of administrative or technical experience as a substitute for all or part of actual working experience.

Dove-tailing with this alternate is a massive and intensive training program now in full gear. Qualified applicants will be trained thoroughly to become fully qualified, responsible and efficient in the vast complex of operations the FAA controls.

Throughout the training period, the duties in air traffic control could range from control operator to flight service stations specialist which would include duties such as safety control of aircraft movements and general service to pilots.

With the rapid daily change in the aviation industry, the FAA training program in essence really never ends. Constant review, briefing and research is a must for this agency whose hands guide progress and safety of the aircraft and airways across the rapid crowding skies overhead.

Relative with this urgent need for more personnel in air traffic control, the FAA has been able to shed the dreaded red tape of civil service examinations which usually were followed by a wait of several weeks before the applicant could learn his status or score for the position for which he applied.

Tom Jones, Assistant Chief of Air Traffic Control at Metro Airport, is taking applications and giving examination twice a month. The entire examination is given, processed and scored all the same day and applicant knows before the day is over just where he stands for the job he is seeking.

The next examination has been scheduled at Metro Airport for Saturday, Oct. 11, and full details can be obtained from Mr. Jones at the Detroit Metro Air Traffic Control Tower by calling 728-2210.

Without any doubt, the FAA's record log tells the story in simple figures just how this world of aviation is skyrocketing with fantastic daily increases.

Just in case you readers in Wayne, Garden City, Inkster, Dearborn, Plymouth, Belleville and Romulus have wondered about a "lot" of airplanes around lately, this is the score for the fiscal year of 1969 ending June 30, there were over 324,000 landings and take-offs from Metro Airport, almost 73,000 more than in the previous year.

George Niles, Chief of the Detroit Metro Airport Air Traffic Control Center, said

22 Seconds Left - Belleville Loses

4th DOWN PASS HUMBLER TIGERS

Three touchdown passes, two coming on key fourth-down plays, carried Redford Union to a stunning 20-14 victory over the host Belleville Tigers before a

packed house Friday night to snap the Tigers' 2-game winning streak and ruin Coach Jim Richerdollar's Suburban '6' opener.

The third TD aerial, and the one that "broke the camel's back", came with the score tied, 14-14, and only 22 seconds left on the clock. Redford quarterback Gary Bevington fired the 12-yard

game-clinching aerial as the Belleville defensive line tried frantically to reach him. End Kirk Taylor hauled in the pass and the visitors' side erupted in a jubilant roar.

Coach Jim Richerdollar of the Tigers, although dejected after the last-second defeat, said: "It'll take a lot more than this to knock us out of the League race. We're a good team and we'll be ready to take on Bentley this Friday night."

The dramatic defeat stung the partisan fans who had watched their host heroes take charge most of the game, limiting Redford Union to less than 50 yards rushing. However, the visitors' 200 aerial yards spelled the difference.

Belleville broke on top about midway through the first stanza when they moved 74 yards in 10 plays to score with quarterback Dick Wenzel sneaking over for the 6-pointer. Wenzel's attempt for a two-point conversion run fell short and the Tiger fans glowed in the 6-0 lead. Key play in the drive was a 40-yard pass from Wenzel to Tony Ogletree on the Redford 30 yard line.

Belleville stymied every Redford Union drive until the visitors' got the ball on the Tiger 40 yard line and scored in just four plays with less than a minute and a half remaining before halftime.

Quarterback Bevington hit halfback Tim Daniels with a 28-yard pass to knot the count. The extra point attempt failed and the score remained 6-6.

No more scoring took place until Redford hit on what seemed to be a broken play. Bevington handed off to halfback Bill Booker who was trapped deep behind his line and desperately looped a pass over the hard-charging Belleville forward wall. Bevington took the pass and raced 50 yards down the right sidelines for the score. He then hit end Kirk Taylor with the 2-pointer and the visitors led 14-6.

Undaunted, Belleville marched 65 yards down the field with Mike Fant sprinting around left end for 35 yards to the Redford 20. Wenzel alternated Fant and Garrard Pettus into the line and capped the drive with a one-yard dive into pay dirt. Wenzel ran the two-pointer on a sweep right and the Belleville stands went wild with the score tied again, this time at 14-14.

Belleville had another wonderful opportunity to score in the second half when they moved the ball well. Aided by a pass interference penalty against Redford Union for 15 yards and one of five yards, the Tigers were on their way after defensive halfback Ed Gielinski had intercepted a Bevington pass on his own 45.

However, mental lapses and penalties stalled the drive. The score remained (Continued on 2nd Sports)

HARD MAN TO STOP—Elusive Belleville quarterback Dick Wenzel (11) running room in the above play and makes good use of it. The Tigers failed, however, to make good use of Wenzel's two TD runs and yielded to league rival, Redford Union 20-14 in the wilying seconds of the game. The loss spoiled Belleville's league debut and snapped a two-game winning streak.

AIRPORT LANDS 6-0 VICTORY

Huron Rally Falls Short

A couple of long pass receptions in the last two minutes of the game brought Huron back to life but it wasn't enough as Airport smothered the Chief's bid to tie up the score with an interception.

Leading 6-0 with two minutes on the clock, Airport hung on to hand Coach Lee Smeltzer and the Chiefs their second Huron Conference league setback of the '69 campaign.

Quarterback Butch

Sueminick collaborated with end Dan Dilks for a 45-yard pass and the Huron QB came right back with a screen pass to fullback Ed Smith to carry his team to the Airport five-yard line, their furthest penetration of the game, with seconds left.

But at the five, the Chiefs found the real estate expensive and, after two unsuccessful attempts, gave up the ball via a pass interception.

Airport scored in the second period on a six-yard spring via Doug Foster. And that's the only TD the guests managed to get as the Chiefs' defense, pulled together by linebacker Joe Richert and Tom Umin kept Airport in check.

"I think that our boys finally are convinced that they can play ball and that second half proved it," said first year coach Smeltzer who inherited a team which failed to win a ball game last year.

"From now on, I feel we're going to be tough," he said.

Huron will make its next bid for a league victory Friday night when the Chiefs open up their night schedule with Blissfield at 7:30 p.m. The game will also usher in a new era as the Chiefs play their first game under lights which were recently installed at the newly constructed field.

Romulus Settles For Tie

BY JIM BRADLEY

The scoreboard didn't work for the first half, but it wasn't needed very much as Romulus and Hamtramck struggled to a 6-6 deadlock Friday afternoon before a sparse crowd at the Eagles' home field.

With both offenses showing signs of effectiveness at times but sputtering once they got into scoring territory, it was a very lack-lustre performance on both sides of the line. Each team pushed home a touchdown in the third quarter and that was all the

scoring for the day.

Romulus Head Coach George Pratt probably summed it up best when he made the comment, "Well, at least we didn't lose!" The tie left Romulus winless in its first three starts, having lost to Livonia Franklin and Wayne before Friday's stalemate with the Cosmos.

Things looked pretty good when Romulus scored first with 5:09 left in the third period after a scoreless first half. The TD climaxed a 68-yard drive in seven plays to put the Eagles on the board.

The drive started on the heels of a sustained Hamtramck drive deep into Eagle territory which abruptly ended when Cosmos halfback Curly Thompson fumbled after some brilliant bursts through the line on the drive. With Cosmos quarterback Tom Bruno using Thompson almost exclusively as his running back, Hamtramck reached the Eagle 15-yard-line in the scoreless half.

Beginning on their own 20 when the second-half kick-off sailed into the endzone, the Cosmos sent Thompson reeling around end to midfield on a brilliant scamper, but it was called back on a clipping penalty. Bruno was nailed for an eight yard loss, but Thompson, hitting right tackle on a quick-opener, cut to the right sidelines end ran to the 36 for a first down.

Bruno ran to midfield on a keeper, then Thompson ran for five more. The 6-2, 175 pound speedster, who gained more than 100 yards during the game, again got the call on a quick hitter at right tackle, cut to the sideline and ran all the way to the Eagle 15 where he fumbled and defensive ace Ron Kersey alertly fell on the pigskin.

Romulus showed one of

its rare flashes of brilliance during the sunny afternoon when they moved 68 yards in seven plays to light up the repaired electric scoreboard. Hard-running Dan Chapo burst through the right side of his line, side-stepped, a tackle in the secondary, and raced 60 yards before being hauled down on the Hamtramck 11-yard-line.

Rance Thomas, who played a fine offensive game for the Eagles, carried to the eight. Rugged Dave Brown rammed to the two around left end, then repeated around right end for the touchdown behind good blocking. Quarterback Bill Worden, who ran the ballclub the place of Chris Glinki, was trapped on a wide right end sweep and the score remained 6-0.

'Judgment Day'

It isn't often when Sylvester Mosley, head football coach at Inkster, gets the time to make a trip from Inkster to our cell in Wayne. And, when last Sunday early in the morning he announced that "I want to talk to you," you knew that something of importance had occurred.

Mosley, who "plays it cool" and makes his players follow that particular philosophy, was "mad," so irate that "something must be done."

The impetus of all of this Viking anger was the frustration suffered from a 44-14 defeat at the hands of Mid-Wayne rival Taylor Center last Friday.

That opening league match exploded into a "free-for-all" when two players were ejected out of the battle in the fading minutes of the game. And the blame, according to the veteran grid coach, could be placed squarely on the inept officiating.

Inkster watched two touchdowns long runs—vanish because of what Mosley terms "judgment calls." One of those scores that was nullified in the game came early in the first quarter which would have given the Vikings the lead and the momentum.

"When I would ask the ref what happened, he would answer 'It's a judgment call' and whom, we were on the penalty end of those judgments. I will never subject my team, my staff and others to such humiliation again," says Mosley. "Enough is enough."

Old Bugaboo - Inconsistency

"It boils down to this—there is absolutely no consistency in officiating these days and we, as coaches, are at the mercy of those refs who get away with so-called "Judgment calls," "something must be done," he said.

Mosley, who has for the past four years coached the Inkster grid team, feels the school district has enough problems just trying to field a team. And when they run up against refs as they have in the past two games, it makes him wonder.

Inkster has financial problems which are yet to be resolved.

"There isn't an official, a man or woman, who has, in the past four years seen me coach ever see me abuse a ref," said Coach Mosley. "I've always kept my 'cool' as the saying goes and I have told my players to do likewise."

"We have to respect the officials, after all, without them the game is not a game," he said. "But, for heavens sake, when are they going to respect their work?"

LOOKING FOR DAYLIGHT—Muscling his way to a couple of yards is Romulus halfback Rance Thomas (27) who found the going tough against Twin Valley Conference rival, Hamtramck. The two rivals played to a 6-all tie. The Eagles have a nonleague date this week when they run up against Lincoln Park.

The salary for the successful candidate is to be based on education, experience and ability, Mrs. Wilson said.

"Don't they realize that by their poor officiating, their inconsistencies, they not only lose our respect, but lose their own. How can they return home and look themselves in the mirror after officiating a poor game and be satisfied?"

"And, more important," says Mosley, "they know right (or should know) right from wrong, and by inept officiating we get what happened at Taylor Center game a 'free-for-all'."

"Something must be done before those 'free-for-alls' end in tragedy," added the Inkster coach.

And "that something"—whatever it be—should be done before "Judgment Day."

Belleville Loses

(Continued from 1st Sports)
14-14 until just 22 seconds remained and Redford had a fourth down on the Belleville 12. That's when Bevington connected with Taylor for the winning touchdown.

"I really feel we outplayed them, but it's not the statistics that count, it's that score up on the board," a determined Richendollar said after the disappointing defeat.

He had the figures to back him up, if that is any consolation.

Belleville rolled up 310 total yards to Redford Union's 240 and 15 first downs to the visitors' 10.

The Tigers passed "officially" for 150 yards on 8 connections in 18 attempts. Bevington hit 10 of 22 for over 200 yards, and this was the determining factor in the hard-fought game.

"Give credit to Ed Gielinski and Rick Mussehl, Richendollar said. "They played outstanding games in defeat." Gielinski went both ways, playing cornerback on defense and fullback when Belleville had the ball.

Linebacker Rich Mussehl

was in on many tackles and roused the determined Belleville defense which did not give up a touchdown on the ground during the game.

The Tigers head for Livonia Bentley Friday night and its a determined team that will make the trip. "I'm not making any predictions," Richendollar cautioned, "but the boys are really disappointed at themselves for losing this one. I'm sure they'll be ready to play Friday night."

"The boys made too many mental errors, and we're going to have to be at our best to beat this good Bentley team. I don't think it'll take much to get the boys up for the game," he said.

Johnson Assists In Camille Area

Constructionman Richard D. Johnson, USN, son of Mr. and Mrs. Jack R. Johnson of 103 Montague, is serving with Naval Mobile Construction Battalion 74 in Vietnam.

Just prior to departing for Vietnam the Battalion helped with rescue and clean-up operations in gulf coast cities hit by hurricane Camille.

TD BOUND—With a huge Hamtramck defensive player hovering over him, Romulus' Dave Brown (37) manages to slip by and score the Eagles' "lonely" touchdown of the game. The Cosmos came back to tie it up in the fourth quarter, and the two teams wound up with a 6-6 Twin Valley Conference tie on their record.

Patrick Putman With Naval Unit

BELLEVILLE—Aviation Electronics Technician Airman Patrick A. Putman, USN, son of Mr. and Mrs. Richard A. Putman of 10001 Endicott, is serving with Training Squadron Three at the U.S. Naval Auxiliary Air Station, Whiting Field in Milton, Fla.

The squadron provides flight instruction for student naval aviators.

WIBC sanctioned leagues during the 1968-69 season or have an established league average with 18 games or more in the 1969-70 season are eligible to compete. Couples may choose any Saturday or Sunday during the Tournament on which to bowl. Special arrangements will be made for club groups.

During the doubles matches, each husband and wife bowl three games on the same pair of lanes. Their combined score, plus pin handicap, determine their ranking in the tournament. Entry fee of \$13 per couple includes all bowling fees, costs and prize fund.

Romulus Settles For Tie

(Continued from 1st Sports)

Powered again by the versatile running of Thompson, Hamtramck marched 53 yards in 10 plays to tie the score. Thompson gained 33 of those yards on four carries, the key one being a 20-yard jaunt to the Romulus 13. He repeated as messenger and ran to the six. Three plays later, Bruno faked a handoff into the line and bootlegged around right end virtually untouched from the three as time ran out in the third period. Trying the identical play for the extra point, Bruno was hit hard,

fumbled, and the score remained 6-6.

The fourth quarter was another study in futility as both clubs tried valiantly to edge into the lead.

On the ensuing kick-off, Worden took the ball and handed off to Rance Thomas who swung behind a wall of blockers down the right sidelines and almost went all the way. He was finally collared at the 50-yard line.

Brown ran to the Hamtramck 35, Thomas lost two and then Dan Chapo broke into the clear and raced 17 yards to the Cosmos' 27, fumbled and the visitors recovered to thwart the drive.

Hamtramck made one last futile bid to snap the deadlock. Again powered by the elusive Thompson, they used 14 plays, including two aeriels, to move to the host team's 15. Here, Russell Reaume recovered Henry Myrick's fumble and the game ended shortly thereafter.

Coach Pratt figured the Reserve football game might have had something to do with the inept performance by Romulus. "Our Reserves walloped Hamtramck's Reserves, 76-0, on Wednesday and I think the team thought they would do the same to the varsity," Pratt said.

"I thought Freshman Ron Kersey played a whale of a game with his 12 tackles and I assist. We just brought the defensive halfback up this week and he looks like a real good one. He also recovered the fumble which led to our only score, the coach said.

Pratt had high praise for senior middle guard Leon James who had 8 tackles and 5 assists and for junior defensive end Mike Csaszar with 9 stops and 2 assists. "These boys were outstanding even though we didn't win."

Romulus only managed 7 first downs for the game and 195 total yardage, 122 of that real estate coming on the ground and 37 and 3

FLYERS

(Continued from 1st Sports)
The previous week all three teams wound up with ties.

The Freshmen emerged from their battle with an impressive 14-6 victory over their counterparts while the Junior Varsity scored a 20-0 victory.

Although they surrendered, the Varsity made the Blue Jays know that they were in a battle. The local gridders fell to the Livonia team 24-14.

Romulus will be home this Sunday to Northville with kick-off scheduled for 1 p.m. The games are played on the Romulus Sr. High School gridiron.

Newly Formed Romulus GOP Club Holds Meet

ROMULUS—The newly-formed Romulus Republican Club met on Sept. 16 and was pleasantly surprised with over 30 local residents from all walks of politics in attendance.

Republicans, Democrats, and Independents alike heard the new and "excellent" Constitution read by its committee chairman, Jason Lovette.

An interesting speaker, Dwight H. Vincent, District Chairman for the 15th GOP District, gave a fine outline of organizational procedures for this young club headed by Ronald Hopson, a local businessman.

It is hoped by club officials that any and all persons who desire the healthier climate of a two-party system once again in Romulus Township, will attend the coming 8 p.m. meeting on Oct. 21 at the local VFW Hall.

Refreshments are served and issues are aired.

Charter Group Continues Work on Executive Dept.

ROMULUS—The rest of the executive departments and offices were discussed and acted upon at the most recent meeting of the Romulus Charter Commission.

There was a discussion of the Civil Service question but the commission could come to no agreement.

Each member of the nine member Charter Commission is to have at the next meeting a proposed wording for the Civil Service System that can be considered.

There shall be a

Department of Building and Safety.

ON THE question of "Other Departments and Commissions", it was decided that the Council shall have the power and authority to establish, create, and eliminate such other commissions and departments where, in its opinion, the proper administration of the business and interest of the city requires.

Corporation Council - Function and duties. This section was tabled until the commission had a chance to

speak to the commission attorney as to whether a full-time counsel is needed, or a man or firm to be consulted when the need arises.

Department Heads and Commission Members. The mayor shall have the power to appoint his department heads but the commission and board members will be appointed by a simple majority vote of the council.

THE REST of the section on Department Heads and Commission members will not be passed on until the commission has a legal interpretation relative to terms of office. Whether to hold office until new elected officials take over from an outgoing administration, or resign promptly when an administration is voted out of office is the question.

VB School Board Accepts NBD Bid

BELLEVILLE—The Van Buren School System is borrowing the sum of \$525,000 from the National Bank of Detroit on anticipated state school aid, James Egan, business manager for the school district, disclosed.

The National Bank of Detroit submitted the low bid of 4.40 per cent interest on the loan to be paid over the loan period of Sept. 23 to March 22, 1970.

State school aid is computed on school enrollment. Deadline for student count was Friday, Sept. 26.

Last year's school aid was reported as \$1,973,380. Such aid is only about 38 percent of the total revenue receipts.

The school system has to operate from July 1 to Dec. 31 without the bulk of revenues which is derived

from property tax, Egan said. States Aid per student in the 1968-1969 school year amounted to \$234 on a school enrollment of 6,916 students.

This year enrollment total has increased approximately 200, Egan reported.

Retainer Increased

BELLEVILLE—The Van Buren Township Board of Trustees have approved raising the annual retainer fee for the law firm of Berry, Hopson, Francis and Mack, township attorneys.

The annual fee was increased to \$13,500 from the present \$9,500 per year.

Missionary Rally Announced

BELLEVILLE—The Reverend David B. Clark, missionary to Jamaica, West Indies, will be one of the guest speakers in the missionary rally to be held at the Zion Missionary Church, located at 89 Edgemont Street.

The dates of the rally are Oct. 1-5. Sessions will begin at 7 daily and at 10 and 7 Sunday.

A veteran of 26 years of missionary service, Rev. Clark served in Jamaica for two years before going with three other Missionary Church families in 1945 to open missionary work in the Dominican Republic along the Haitian border. In 1949 he returned to Jamaica to continue service with the Missionary Church.

Rev. Clark, a graduate of the Fort Wayne Bible College, class of '43, has served as chairman of the field for several years, supervised young churches, and organized the field, in addition to pastoring congregations and founding new churches.

Since 1956, in addition to being supervisor for the

Eastern District of the island, he has pastored the Grace Missionary Church of Kingston, except for periods when he has been on furlough. He has had a weekly radio ministry which covers the entire island of Jamaica and has even had response from listeners in Cuba.

U-D PRODUCTION

Edward Albee's comedy-shocker, "Everything in the Garden," opens the University of Detroit theatre season tomorrow Oct. 3, for a run of two consecutive Thursday-through-Sunday weekends (October 2-5, 9-12).

The play, for mature audiences only, is performed at 8:30 p.m. Thursdays through Saturdays, with a 7:30 curtain Sunday nights. All stagings will be in Theatre 113 of the Ford Life Science Building on the University's McNichols Road campus. For reservations call 342-1000, extension 207.

RUG HOOKING CLASSES

Greenfield Village will again offer instruction in rug hooking to a limited number of students beginning Oct. 11.

Three six-week classes, each limited to 12 members, will meet in the Cotton Gin Mill in the Village. Typical of early gin mills in the South, the building was moved to the Village from the Richmond Hill Plantation in Georgia in 1939.

Classes meet from 9 a.m. to noon one day a week. Saturday classes start Oct. 11, Wednesday classes on Oct. 15 and Thursday classes on Oct. 16.

Tuition for the course is \$18, including the cost of a hook. Students will be able to purchase materials at cost. Those interested in registering should contact Mrs. Elsie Suffron at 271-1620, extension 232 as soon as possible.

FALL COLOR TOURS

The next few weeks should bring brilliant fall color to southeastern Michigan and among the sites easiest to observe the changing season are the parks of the Huron Clinton Metropolitan Authority.

Persons may take self-directed color tours at all eight HCMA parks, with the best color expected from early October through the weekend of October 19th. Persons wishing a map showing the location of all eight parks may write Metropark

Guide, HCMA, 1750 Guardian Building, Detroit, Michigan, 48226 or Phone 961-5865 (Detroit).

Highlights of fall color at Authority parks include:

METROPOLITAN BEACH along Lake St. Clair near Mt. Clemens provides fall color along the Metropolitan Beach Parkway. Facilities include a nature trail in an open marsh, boat launching, golf, shuffleboard and food service. Park hours are 8 a.m. to dusk. For information phone 463-4581 Mt. Clemens or 963-3022 Detroit.

STONY CREEK METROPOLITAN PARK, near Washington and six miles north of Utica, covers 3,500 acres of hilly, rolling countryside which is abundant with fall color. Entrance to the park is on 26 Mile Road west of M-53 (Van Dyke) Freeway.

One of the most beautiful areas for fall color is **KENSINGTON METROPOLITAN PARK**, located near Milford along the Grand River (I-96) Freeway.

Color should be especially brilliant at the Huron-Clinton Metropolitan Authority parks in Washtenaw County. Flowering dogwood, scarlet oak, white oak and hickory are the trees providing excellent fall color at Hudson Mills Metropolitan Park, located along the Huron River about 12 miles northwest of Ann Arbor. Fall wildflowers can be found along the nature trail, where plant life is labelled for easy identification. The park entrance is along North Territorial Road near the junction of Dexter-Pinckney Road.

LOWER HURON METROPOLITAN PARK along the Huron River near Belleville, offers the changing colors of sumac, black maple, redbud and sassafras trees. Several nature trails are available for hikes. The parkway provides a scenic drive. Other facilities include the picnic and playground areas, the Tot Lot and an 18-hole Par 3 golf course. The entrance is along Hannan Road via the Haggerty Road exit from the I-94 (Edsel Ford) Freeway between Detroit Metropolitan Airport and Belleville. For information phone 697-9181 (Belleville).

'Spofford' Rates An Honorable Mention

By ALAN KROKER
ANP Amusement Critic

"Spofford!" may not be the dreariest evening Broadway has sent us but, if not, the current Fisher Theatre production deserves at least an honorable mention.

Spofford is a product of rustic America whose Connecticut home is being invaded by the spread of suburbia. He decides to conduct field research into the mores and customs of Commuter Urbanis but there are several things wrong with this premise. First, it might have passed as a theme 20 years ago but the spread of transportation and communication, especially television, has reduced the culture gap to the point where the natives to comprehend, even if they don't approve. Second, Spofford does not ring true; if he's as corn fed as all that, terms like "phallic symbols" would not be in his vocabulary.

The basic failure of "Spofford" is its infinitely tedious plot

Bacteria and Drama---

Mrs. Tobin's Loves

How does a lady with a degree in Bacteriology ever become involved in a group like the Wayne Civic Players?

The answer is easy, if the lady happens to be Mrs. Lois Tobin of Garden City. To hear Mrs. Tobin tell it, it was just a natural evolution.

After the birth of her two children, Mrs. Tobin started teaching an adult education group, and from this group, the Players group evolved. That all happened eleven years ago.

Since then she has received her masters in special education, has kept up her teaching job, and assisted the Players in every phase of production.

Also in charge of the dramatic activities at John Glenn, Mrs. Tobin has taken part in every Player

production either through directing, acting, and just lending a hand.

Currently Mrs. Tobin is involved in the Community Theatre Association of Michigan and their State "one-act writing contest."

Closer to home, she is directing the fall Player production "Catch Me If You Can," slated for Oct. 17 to 19 at John Glenn.

On the value of local community theater, Mrs. Tobin said, "The people of the Wayne-Westland area are missing an opportunity to have a reasonable, entertaining evening of theatre by not supporting their local theatre groups. It's the opportunity where

which casually meanders from subject to subject. One moment Spofford is tiptoeing with a roistering Brendan Behan-type, poet Gowan McGland. The next he is avoiding the clutches of his insipid daughter-in-law's mother, who wants a husband. Occasionally he's throwing epigrams at the audience, like, "I consider the home an invasion of privacy." Or posing as a gardener to do field research amid the suburbanites. At no time does the play pass from point to point with any degree of purpose.

Hans Conried, an extremely versatile actor, at home with dialect comedy or Shakespeare, has at last found his limits, nobody could ever accept him as a down-Easter with the twang of New England in his voice. Jerome Dempsey fares better in the fail-safe role of McGland. By and large, author-director Herman Shumlin has come up with a most effective tranquilizer.

Things are a bit more lively at the Concept East, where David Rambeau offers LeRoi Jones' "The Dutchman" on a bill

with two more one acts by another black author, Ed Bullins. "The Dutchman" is by far the most polished of the trio, offering Jones in a more coherent moment than in some of his public appearances, although naturally bitter. "The Dutchman" concerns the encounter of a black man and a white woman on a train, the white woman portrayed by black actress Cynthia Patterson, with greasepaint forming a stiff mask to denote artificiality. One hopes Jones is mistaken in his interpretation of the relationship between the races; certainly Jones promises only ashes.

Bullard is not as mature an author, but he can be forceful, as "Clara's Ole Man" indicates. Here, an escapee from the ghetto into middle class conventionalism returns to visit a girl and finds himself utterly and savagely rejected by a culture which does not permit easy passage into our world. It is by far more effective than Bullard's "A Son, Come Home" a somewhat pointless exploration of the degeneration of a family as seen in casual flashback.

VAN BUREN TOWNSHIP BOARD MINUTES

Regular Meeting
August 26, 1969

The meeting opened with the Pledge of Allegiance and was called to order at 8:00 p.m. by Supervisor Stoelton. Board members present were: Stoelton, Hogan, Hink, Birk, Domcik, Maton, and Payne; also present were Attorney Hopson, Township Engineer Levine, Secretary Brown and sixteen citizens.

A motion by Hink, supported by Domcik, that the Minutes of August 12 be accepted as corrected. Motion carried.

A letter was sent to Mr. Hink from the 4-H Fair Committee thanking Board members for the assistance and protection the Van Buren Township Police Department had given during the recent 4-H Fair Parade.

Mr. Levine explained the resurfacing project of Ecorse Road. The state paved the road originally; the sewer contractor had previously bid the job when the road was gravel. We can do the resurfacing at a cost of approximately \$18,000 using a 2" surface. Since it is a county road now, they may want to put in the road with the 2 1/2" surface. Our Township engineer must find out what type road base was put in originally and determine which type surface is needed for a long life expectancy. A motion by Hogan, supported by Domcik, that we submit specifications based on the 2" blacktop in order that we may obtain county approval with the road base as it is now, remaining in the \$18,000 range. Mr. Levine was to call the County Road Commission the following day. Motion Carried.

One bid was received for the cleaning of the Hubbard Drain, that of Clyde Bunton and Son of Willis, Michigan in the amount of \$7850.00. Motion by Hink, supported by Maton, that we accept the bid from C. Bunton and Son, after the township engineer reviews the specifications. Carried unanimously.

One bid was received for labor and material to install water lines, taps, shut-off valves on Fairview Court, that of Andy's Excavating, in the amount of \$2220.00. Motion by Hogan, supported by Birk, that we accept the bid from Andy's Excavating after the township engineer reviews the specs submitted. Motion carried unanimously.

A letter was received regarding the Western Wayne County Task Force, a 14-community one-day program to be conducted at the Army Reserve Center on Schoolcraft Road in Livonia. Mr. Hink would like to send twelve men to train for riots, weather problems, i.e., tornadoes, etc. Motion by Hogan, supported by Domcik, that we pay \$20.00 to each man attending the training program. Carried unanimously.

Mr. Harry Traskos was present inquiring about a sand removal permit in an area zoned agricultural consisting of approximately 20 acres west of Hannan Road, north of I-94, and south of Tyler Road. Motion by Hink, support Birk, that Traskos get a topo in and if the township engineer determine that this will be feasible, a permit can be issued. Motion carried.

At the Planning Commission Meeting of 5-28-69 a public hearing was held with the Van Buren Investment Company at which time they had asked that 14.4 acres on Ecorse Road west of Haggerty Road and approximately 58 acres on Haggerty Road be rezoned from single family residential to multiple family residential. The Wayne County Planning Commission asked that if we wish to consider the proposed multiple family residential plan, then we should have our master plan amended so that this new parcel of land would fit in. The parcel covers approximately 75 acres at the southwest corner of Ecorse and Haggerty Roads, near the proposed interchange of the I-275 freeway. Motion by Maton, supported by Hink, to accept the recommendation of the Wayne County Planning Commission to table this request until our planning commission has

talked with Parkins and Rogers to determine if the proposed rezoning would be feasible. Motion carried.

A motion by Domcik, supported by Birk, that the Belleville area senior citizens be granted permission to use the township firehall in Belleville September 26 and 27 for their garage sale. A letter requesting permission had been sent to the township officials by the senior citizens director, Mr. R. Coffelt. Motion Carried.

A motion by Domcik, supported by Birk, that we appoint Mr. Richard Krug to the Township Water and Sewer Commission. Carried Unanimously.

A Motion by Maton, supported by Hink that Steve Horvath be appointed to the Township Water and Sewer Commission. Carried unanimously.

A motion by Hink, supported by Hogan that Mr. Robert Fraser be appointed to the Huron Water Shed Commission. Motion carried.

At the present time we have a contract with a gentleman who mows the lawn and trims around head stones in the Pleasant View Cemetery. Trees are growing within the cemetery and vines along the fence, etc. which would have to be contracted separately for removal. A motion by Hogan, supported by Maton that we table the clean-up contract until the next meeting so that we can determine what has to be done and the approximate cost. Motion carried.

Mr. James Jackson, part-time township employee, had an appendectomy recently and was not eligible for medical compensation, and is unable to pay his doctor and hospital bill because he did not earn enough money. Mr. Stoelton asked that our township attorney check into the matter to determine if we might assist Mr. Jackson in paying his hospital bill.

A motion by Hogan, supported by Maton, that we grant a kennel license to Mrs. Thomas Mitchell, 46314 Chatsworth. Motion carried.

Motion Hink, support Hogan, to pay the bills as per vouchers. Carried unanimously.

A motion by Birk, supported by Hink, that the meeting be adjourned. Motion was carried and the meeting adjourned at 10:00 P.M.

Chamber Hears Road Director

BELLEVILLE--Freeway System and highway construction program, past, present and future was detailed to some 80 members and their wives and guests at the Belleville Area Chamber of Commerce's general meeting held at Rogalle's Lounge last Thursday, Sept. 25.

The featured-guest speaker for the Chamber gathering was Henrick E. Stafseth, director of Michigan Highway Department.

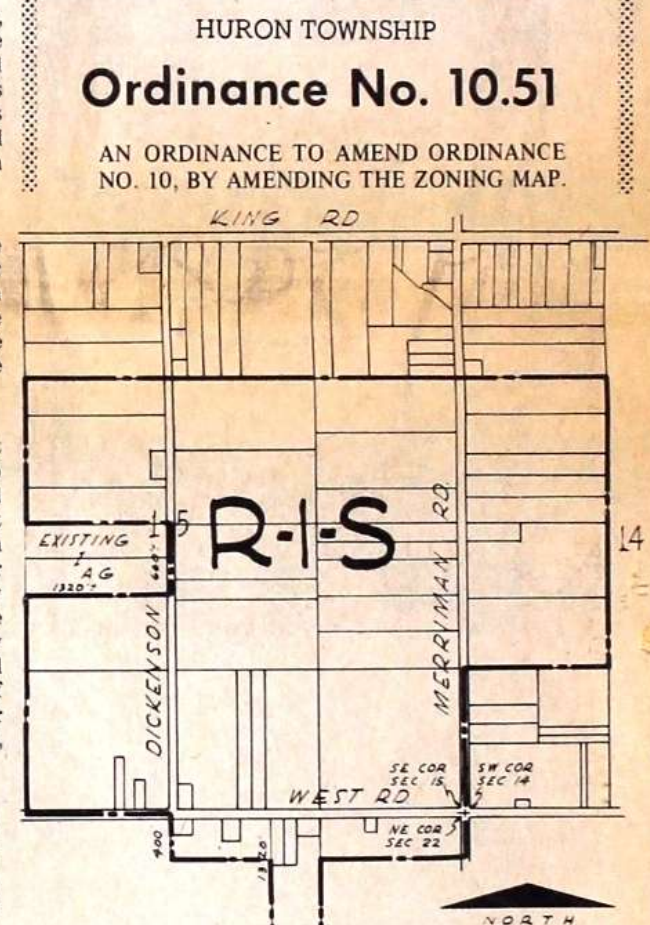

Runway Repairs Started

ROMULUS--Airline passengers were warned Wednesday, Sept. 24, that they might be inconvenienced at Detroit Metropolitan Airport while runway repairs are being made.

James M. Davey, Managing Director of the Wayne County Road Commission, which operates the Airport, said the repairs and improvements started Sept. 1 and will run through Dec. 1.

During this period, he said, each of the three major runways will be worked on one at a time. Cost of the improvements will be \$510,000 which will come from Airport revenues.

The main or instrument runway was closed Sept. 15 and will remain closed until Oct. 6, allowing for pavement repairs, construction of a connection to the runway for the new Flying Tigers facility and taxiway lighting. The Airport is currently experiencing some delays and there is the possibility of diversions during bad weather until the work is completed, Davey added.

Associated Newspapers is proud to offer you this special home edition, in observance of National Home Month, by making you aware of the many fine business establishments, real estate firms, etc., in your community specializing in buying, selling or maintaining your investments.

Constant care of your home and property not only makes you proud of the choice you've made, but it also maintains a high retail value should you want to move on to bigger and better things.

"There is a trend toward a return to the home, rather than seeking relaxation outside the home in far-away places, and the average new home today provides more relaxation and privacy than it once did."

Whether you live in the city, suburbs or in the country, your home will probably be the biggest investment of your life. It will also be one of your most prized possessions.

WHAT IS MULTI-LIST?

"MULTI-LIST" is a registered name on file in Lansing for the exclusive use of the United North-western Realty Association. It is used to describe a unique function of the Association that results in quicker Home sales at more favorable prices for clients who list their homes for sale with brokers who are members of the Association.

Here's how it works. Any member of the Association who receives a standard listing from a client wishing to sell his home is obligated to send complete information about this property to Association headquarters within 24 hours.

This property is then photographed by an Association staff photographer, complete information about it is typed on one side of a Key-Sort card and the photograph is printed on the reverse side. This card is then mailed to every member broker.

Every member of the Association has upwards of 4000 MULTI-LIST cards on file at all times. But because of Key-Sort system, any salesman can find a group of homes that fit any prospect's requirements in a few minutes. And what a powerful selling tool these MULTI-LIST cards have proven for the 1600 real estate salesmen working in the 160 offices of Association members!
